SUMMARY

Full-Stack Software Engineer with hands-on experience building scalable backend systems, real-time applications, and distributed architectures across cloud-native environments. Proficient in designing high-performance REST and GraphQL APIs, optimizing system latency, and deploying production-grade applications on AWS using CI/CD best practices.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL

Frameworks: React.js, Next.js, Node.js, Express.js

Backend: REST APIs, GraphQL, WebSockets, Microservices, JWT Authentication, RBAC

Databases: MongoDB, PostgreSQL, MySQL, Redis (Caching, Indexing, Query Optimization)

Cloud & DevOps: AWS (EC2, S3, Lambda), Docker, CI/CD, GitHub Actions, Git, Linux

Core Concepts: Data Structures & Algorithms, System Design, Distributed Systems, Operating Systems, Database Management Systems, Computer Networks

EDUCATION

JSS Academy of Technical Education, Noida

Nov 2022 – Jul 2026

B.Tech in Electronics & Communication Engineering

- Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming

Class XII (CBSE) | 94.6%

2021

EXPERIENCE

Software Development Intern

Jan 2024 – Mar 2024

Quizzard

Remote

- Reduced page load time by 35% for 10K+ MAU using code splitting and lazy loading
- Improved engagement across 5K+ users by engineering responsive UI components
- Spearheaded a reusable component architecture, accelerating development by 40% across the engineering workflow

PROJECTS

Real-Time Collaborative Code Editor | [Live](#) | *React, Node.js, WebSockets*

- Led the development of a highly concurrent collaboration engine supporting 50+ simultaneous users with sub-100ms latency
- Architected event-driven synchronization pipeline, maintaining data consistency across distributed clients
- Optimized rendering and network calls improving overall responsiveness

LearnMate – AI Career Platform | [Live](#) | *React, Node.js, Python, MongoDB*

- Spearheaded development of an AI-powered platform for resume analysis and interview preparation (100+ active users)
- Integrated secure multi-layer authentication and authorization using JWT and RBAC
- Deployed production-grade backend services with CI/CD pipelines, achieving 99.9% uptime

URL Shortener (Vynkify) | [Live](#) | *Node.js, Express, Redis, MongoDB*

- Constructed a high-throughput URL shortening service handling 50K+ monthly redirects
- Decreased latency by 60% via Redis caching strategies and targeted query optimization
- Devised a distributed unique ID generation mechanism, guaranteeing collision-free key mapping at scale

CERTIFICATIONS

AWS Certified (7x): Cloud Practitioner, Developer Associate, DevOps Engineer Professional, Machine Learning Specialty, SysOps Administrator, Data Engineer, AI Practitioner

FreeCodeCamp Certified (5x): Responsive Web Design, JavaScript Algorithms, Frontend Libraries, Data Visualization, Backend APIs

ACHIEVEMENTS

Solved 500+ DSA problems across LeetCode, CodeChef, and GeeksforGeeks
